Neglect of the Boy.

Any father would be surprised at the suggestion that he is ruining his boy by neglect, that his absorption in business will result in the undoing of his own son.

But it is the easiest thing in the world to forfeit a boy's confidence. It will take only a little snubbing, a little scolding, a little indifference, a little unkind criticism, a little nagging and unreasonableness on the father's part to shut off forever any intimacy and real understanding between him and his boy.

One of the bitterest things in many a man's life has been the discovery, after he had made his money, that he had lost his hold upon his boy; and he would give a large part of his fortune to recover this loss, if he could.

It is an unfortunate thing for a boy to be looked upon as a task maker instead of companion, and to dread to meet him because he always expects criticism or scolding.

Some fathers constantly nag and find fault with their sons, never praising them or showing and appreciation of their work, even when it is well done. Yet there is nothing so encouraging to a boy, especially if he finds it hard to do what is right, as appreciation of effort. This is a tonic to youth. Boys thrive on praise. That is why most of them think more of their mothers than they do of their fathers. The mothers are more considerate, more sympathetic, more affectionate, and do not hesitate to praise, well-doing. —Owensboro Inquirer.

Just This.

Is life worth living? It depends upon the life. Is education worth getting? It depends on the education. We are told on the highest authority (the Department of Education of the

United States) that 85 per cent of the boys and girls of the country get no schooling after they are 16, that only 10 per cent of the boys and girls ever reach the closing year of high school. Evidently the boys and girls (and their parents as well) do not think that education is worth getting, or that the education they would get is not worth getting. And it is an unspeakable calamity that nearly two and a half million of these youths are not in school nor working at any handicraft—growing every day as loafers, contributing to the nation's life nothing but laziness, degradation and depravity. This is a national matter, and every school room, business office and every pulpit should ring out the astonishing facts. Is education worth getting?—Ex.

Don't throw potato parings in the garbage pail but into the stove and thereby save yourself the annoyance of having to call the fire department to put out a chimney fire. The burning potato parings prevents the gathering of soot. A man who is keeping up a strong coal fire in his range every day during the winter, says you can never find a trace of soot on the lid, the bottom of kettles or any part of the stove if potato parings are burned daily.—Ex.

SAFETY PIN DODGES KNIFE

Disappears From Baby's Stomach After Operation by Surgeon.

Warren, Pa., Oct. 19.—Altho he swallowed an open safety pin and has undergone a futile serious operation for its removal, the 10-months-old son of R. A. Newhall, of Warren, is expected to live. He is at the Emergency Hospital here. An X-ray examination was made and a photograph taken, which showed the pin in the child's stomach, with the point and catch holding it at the opening to the intestines; so an operation was decided upon. When the baby passed under the influence of the anesthetic it vomited, and the pin disappeared into the intestines. The wall of the stomach was sewn up after the futile surgery.

The attending physicians are confident that the child will recover.

BABY TOSSED INTO TREE

Auto Smashes Little Carriage, But Lands Youngster Unhurt.

Greenwich, Conn., Oct. 19.—Lillian Kalzing 6 months old was sleeping peacefully in her carriage on the lawn in front of the Kalzing home when a large automobile left the Boston post road, plowed through the stone fence and across the lawn. It struck the baby carriage and ground its wheels to bits, but it tossed the body of the baby carriage and the sleeping baby twenty feet through the air and into the crotch of an old apple tree. Mrs. Henry Kalzing, the mother, ran from the house and was searching for her infant, when she heard a merry cooing and looked up. There was the baby gurgling happily to her mother.

Hurled High Into Air

But Didn't Spill Milk

Struck from the rear by an automobile while riding a bicycle and carrying a bucket of milk, Joseph Wischart, of New Albany, was hurled into the air, alighting on the hood of the machine. Through the jolting experience he clung to the pail of milk and did not spill a drop. Miraculously, Wischart escaped injury. Wischart was riding on State

street, between Spring and Market streets, today when an automobile driven by a stranger emerged from behind a wagon and struck his wheel. Admitting that he was in the wrong, the stranger effected a satisfactory settlement with Wischart and drove away. His name was not learned.—New Albany Telegram.

PROMINENT KENTUCKY WOMAN SPEAKS

Slaughterville, Ky.—"I wish to tell you of the benefit Dr. Pierce's medicines have been to us. Several members of my family have taken either 'Golden Medical Discovery' or 'Favorite Prescription' and always with the very best of results. Three years ago my husband had a very severe skin trouble. He took six bottles of 'Golden Medical Discovery' which he procured from a local druggist, and was entirely cured.

"Two years ago I had nervous trouble, heart affections and severe pains in my head. I took two bottles of 'Favorite Prescription' and was relieved. I have taken it several times in the last few years and always with perfect results. I can recommend it to anyone as being all it is represented to be."—Mrs. S. P. COLLINGS, L. Box 112.

German Lost Nearly 8,000

Dead After Fatile Assault

Paris, Oct. 19.—The only news of the night, according to the French official announcement, made public this afternoon, is that of fairly severe bombardments on the part of the Germans near La Scarpe, in the region of Souain. The French batteries everywhere replied effectively.

Latest information confirmed previous reports that the German counterattacks of recent days in front of Loos have resulted only in a serious and costly check. The Germans left a number of dead in front of the allied lines, which is estimated at between 7,000 and 8,000 men. The text

of the communication follows:

"There has been reported during the night nothing more than fairly severe bombardments on the part of the artillery of the enemy at a point north of La Scarpe and in the Champagne district against positions to the rear of our line, as well as in the region of Souain. Everywhere our batteries made efficient reply.

"Further information confirms previous reports that the violent counterattacks delivered by the Germans during the past few days against the British and French fronts in front of Loos and north of this point have resulted only in a grave and costly check. The principal assault was delivered by an effective force of between three and four divisions, which was completely repulsed and dispersed.

"The number of dead left by the enemy on the ground in front of the lines of the Allies is estimated at a total of between 7,000 and 8,000 men."

Blind American Soldier Marries French Beauty.

Paris, Oct. 19.—Joseph Amar, of Washington, D. C., who enlisted in the French Foreign Legion and has been with it in the east part of the war, was married Saturday to Mile Madeline Roseau. The ceremony took place in the Mayor's office in the presence of a large number of sightless companions of the American.

Immediately afterward, Geo. Ardel, a hero of Las Espargues, and also sightless, married Mile Annelise Marguerite. The ceremonies were followed by a luncheon and a concert.
